

# PIQUANT ORANGE SLICES

## LES MOULINS MAHJOUB

*Tunisia*

### SENSORY PROFILE

The flowers of the Sevilla variety of orange are highly-prized around the world for their delicate fragrance and are often distilled to produce orange flower water. The oranges in this product grow from trees that grew from the flowers that were mistakenly missed during a long ago harvest for the flower water. The preserved orange slices can be described as a cross between a marmalade and jam. They have a truly unique and delicate taste and aroma that pairs wonderfully with cheese.

As with all of the Mahjoub products, this is produced using traditional farming methods with no additives or artificial processes.

### TRADITION

The Mahjoub family farms the soil in the lush Mejerda Valley of Tunisia, located on the southern shores of the Mediterranean. It is here that they produce handcrafted products under the Les Moulins Mahjoub label and are known for their steadfast commitment to artisan standards and sustainable farming. The Mahjoub family is recognized in the culinary world as one of the premier producers of extra virgin olive oils, table olives, and condiments.
