

WILD MULBERRY JAM

LES MOULINS MAHJOUB

Tunisia

SENSORY PROFILE

Rich in antioxidants, mulberries are also a good source of magnesium, potassium, iron, calcium, vitamin C, and fiber. Fruit jams from Les Moulins Mahjoub are subtly sweet and more fruit-forward than their American counterparts, which translates into less sugar being added. As with all of the Mahjoub products, this is produced using traditional farming methods with no additives or artificial processes.

TRADITION

The Mahjoub family farms the soil in the lush Mejerda Valley of Tunisia, located on the southern shores of the Mediterranean. It is here that they produce handcrafted products under the Les Moulins Mahjoub label and are known for their steadfast commitment to artisan standards and sustainable farming. The Mahjoub's are recognized in the culinary world as one of the premier producers of extra virgin olive oils, table olives, and condiments.
