

# GREEN SHATTA WITH ZA'ATAR LEAVES

kamā

**KAMĀ**

*Amman, Jordan*

## SENSORY PROFILE

Made from green chili peppers and thyme leaves handpicked from Jordan's fields, this shatta is an innovative take on the traditional. With a distinct herbal and spicy flavor, it will give a kick to any dish. Liken it to harissa in Tunis! Add to breakfasts and dips. Shatta is to be stored in dry storage and at room temperature before opening and refrigerate once opened.

## TRADITION

Kamā was founded with the mission to empower, and give employment, to local Jordanian women who transform high quality raw ingredients into Arab and Levantine delights. Kamā celebrates hands-on food experiences, tradition, and seeks to create a space where people can gather around the "sufra"—no matter where you live.
