

TAHINIYEH

kamā

KAMĀ

Amman, Jordan

SENSORY PROFILE

Made from pure sesame seeds, this creamy paste is delightfully versatile. Kamā purchases high-quality seeds hulled and thoroughly cleaned, and then grinds them with a machine that mimics the ancient stone-grinding method. Best with lemon as a dip, or in hummus, or drizzled with date molasses for a treat. Tahiniyeh should be stored in dry storage at room temperature before opening, and refrigerated after opening.

TRADITION

Kamā was founded with the mission to empower, and give employment, to local Jordanian women who transform high quality raw ingredients into Arab and Levantine delights. Kamā celebrates hands-on food experiences, tradition, and seeks to create a space where people can gather around the "sufra"—no matter where you live.
