UPC	196852984213
RETAIL SIZE	6 x 250mL
ITEM NO	OM0250

## ORO *di* MILAS

*Milas, Türkiye*

### SENSORY PROFILE

Oro di Milas Extra Virgin Olive Oil is a magnificent monovarietal oil produced in the historic area of Milas in Türkiye. Memecik olives are hand-harvested from four orchards spanning over 500 acres and cool-pressed within 6-8 hours on a family-owned, modern state-of-the-art Mori-Tem olive oil mill (highly respected in the industry). Oro di Milas olive oil is an origin-protected oil produced exclusively from the Memecik olive grown in the Muğla province. These unique olive trees produce large, round fruits with high-quality oil content. Complex and harmonious, Oro di Milas oil has an intense aroma of green olives and fresh cut grass. On the palate is green tomato leaf and green almond with a pleasant bitterness and spice. Rich in phenols and wonderful on poultry, fish, salad, and pasta!

**Olive Varietals:** Memecik

**Oleic Acidity:** 0.2%

### TRADITION

Milas is a critical ancient city located in the Muğla province in the southwest of Türkiye - it has a long history of olive oil production dating back six millenia to prehistoric times. Olive oil produced here during the Ottoman era was highly renowned and became one of the leading exports of the region. Oro di Milas Extra Virgin Olive Oil is the result of a great passion for olive trees and their precious juice, as well as female entrepreneurship. Owner Emine Colin, born and raised in Istanbul, returned to her homeland after a long, exciting career in the Unites States. When she met her husband Mark, he inspired her to reconnect to her Turkish heritage. They traveled around, found a property with neglected olive trees, and put their roots down deep. They now produce a world-class extra virgin olive oil on their land and in addition to employing many women in their company, they participate in education and empowerment initiatives for female entrepreneurs in Türkiye.

The intricate symbols on the bottom represent four themes found on ancient carpets from the Milas region: tree of life, mother nature, the eye, and the olive leaf.
